

Save money on your asthma or diabetes medication!

The No-Pay Copay Benefit for EHP members who have asthma or diabetes

The No-Pay Copay benefit will waive the copay for most asthma and diabetes medications if you're enrolled in a Johns Hopkins medical plan and participate in the Care Management program.

In the program, you'll work one-on-one with a care manager to:

- Evaluate your wellness and personal needs
- Coordinate your health care
- Improve self-management of your condition
